The Gift of Blue program is a National FFA grant program where eligible students can apply to receive their own FFA Jacket and tie/scarf. This program is intended for FFA members who might otherwise not be able to own their own jacket due to financial reasons. A student can only receive a jacket once through the program. To nominate a student, fill out the information below and submit to your local FFA Advisor. A student may apply for themselves or can be nominated by a community member. Only complete applications can be submitted.
